

Globally managed collaboration for all your international compliance and reporting needs

Global Compliance and Reporting Services

Are you facing any of the following challenges?

- Excessive expenditures on compliance and reporting management,
- Lack of know-how in view of frequently changing regulations in different countries,
- Insufficient transparency on compliance status for taxes and financial statement and loss of information between headquarter and foreign subsidiaries.

We have the right solution for you:

For our multinational clients who need to ensure tax and legal compliance for many subsidiaries worldwide, our **Global Compliance and Reporting Services (GCRS)** offer a professional solution at a fair fee. In future you will only need one service provider who is there for you in all the countries in which you are active.

Governance model

- Processes are coordinated centrally by a single point of contact in Germany, while our experts in the other countries provide the operational, country-specific services for your international subsidiaries.
- We offer a globally transparent fee model with fixed fees for standard services.
- We are using GT Collaborate, a unique technology to monitor and document all your (tax) compliance and reporting processes and obligations on one platform.

Operational Services

- Local assistance for country-specific processes, e.g.:
 - Tax compliance, planning and tax advice (CIT, VAT, transfer pricing)
 - Compilation of financial statements
 - Full support for permanent establishments
- Outsourcing services for transactional processes, e.g.:
 - Financial accounting, such as accounts payable and accounts receivable, asset management, treasury management, etc.
 - Group and management reporting
 - Payroll accounting/travel expenses/HR
